Erika,

I had the opportunity to run into Michelle Jewel (formerly Moreau) yesterday at the Communications Center in Wilson. She made a point of telling me how nice it had been to work with you and how excited she is about the satellite hours in MR for the Comm Center tutors. I LOVE CommCenter Down Under btw. That will be a fun little thing to market to students.

It is so fun to be in non-library settings and hear raves about your colleagues. As the CommStudies liaison, I wanted to thank you for making this experience so nice for Michelle and her students.

Kathy
