You may want to respond to this, or I can or whatever.

Hello,

I am teaching SCOM 340 Principles of Interviewing and my students have several assignments where they need to use various equipment including microphones, audio recording devices, and video recording devices. I know you were bombarded by several of them in the past couple of weeks and I apologize for not alerting you in advance. However, I have heard from several students about how helpful the staff has been to them. Thank you!!! Just to give you a heads up, there are a couple of other assignments which might require students to borrow equipment and may need to use the editing equipment for video segments. Those assignments are due later in October and mid November. Again, thank you so much for being so helpful!

Aimee Brickner
