Thank you for your service on the Teaching and Learning with Technology Conference Planning Committee. Your personal commitment and energy definitely contributed to the overwhelming success of the 2015 Teaching and Learning with Technology Conference!

I want you to know how much I appreciate your generous participation on the conference planning committee. The work of our committee is important for meeting the missions of LET and the university. Thanks in no small part to your efforts; we are better able to fulfill those missions. It is exciting to see people working across work units to make decisions and get things done.

Your commitment of time and talent allow us to bring such a valuable teaching and learning event to our university community. Your work and contributions are appreciated by me and all of your colleagues. The Teaching and Learning with Technology Conference is a huge event and it wouldn't be possible without the assistance of this committee who help prepare ahead of time, work during the event itself, and clean up afterwards. Thank you for helping to make this year's conference possible!

Thank you!
